Clarification of News Report

"The Virata-Yuchengco-led SPIA Development Consortium is poised to bag next month the contract to build and operate the $11-billion Sangley Point International Airport (SPIA) project after successfully hurdling the competitive challenge made by the Cavite government.

According to a document sent to the Inquirer, Leonides Virata of SPIA Development Consortium member Cavitex Holdings Inc. was invited by the local government to attend the awarding and signing ceremony of the much-awaited airport project, tentatively scheduled for Sept.14.

. . . .

This, after the Cavite government's public-private partnership (PPP) selection committee concluded the 60-day competitive or Swiss challenge for the project on Aug. 17. The consortium did not face other competitors during the process, which led to it finally bagging the contract. Joining SPIA consortium in the project are Munich Airport International Airport GmbH, which is Europe's only five-star airport, and Samsung C&T Corp., the company that built the Terminal 1 of Incheon International Airport and the extension of Changi Airport.

. . . .

The Virata-Yuchengco consortium envisions SPIA as a 'fully modernized, world-class and green airport that is designed to expand as demand for air transport services increases in the next 30 to 40 years, and as operations at Naia are eventually phased out to allow for a redevelopment of the site and its surrounding areas."

We would like to confirm the information stated news article. We disclosed on June 20, 2022 that the HI Board has authorized the Company to enter into the Joint Venture and Development Agreement with the Provincial Government of Cavite in the development of the Sangley Point International Airport as one of the Consortium Partners in the event of award by the PROVINCE. Given that the Provincial Government of Cavite has announced that there were no challengers during the Swiss Challenge period, we are anticipating an award from the Province.
